mariaguerrero1995@outlook.es

LANGUAGES

Spanish: Native
English: Fluent C1

INTERNATIONAL EXPERIENCE

Lived in Australia
Lived in Italy
Currently living in Madrid

HOBBIES

Tennis player with experience in local tournaments
Bachellor´s Degree in Photography

SKILLS SUMMARY

Front-end Developer skills (HTML, SASS, JavaScript, React)
Back-end Developer skills (mySQL, expressJS)
Figma, Canva, Wordpress
Social media management
Office and photoshop pack
Leadership skills

MARÍA GUERRERO LOBO
WEB DEVELOPER

My GitHub username: Mariaguerrero95
My portfolio: mariaguerrero95.github.io/web-cv-MariaGuerreroLobo/

I am an enthusiastic and detail-oriented coder with a keen interest in front-end development and web design. I am passionate about creating user-friendly, responsive websites and improving user experiences. I am looking for work opportunities where I can apply my skills in **HTML, CSS, Javascript** and **React** but i am open to work on back-end solutions, such as **mySQL** and **expressJS**. I am a fast learner, always eager to stay up to date with the latest industry trends and technologies, and I thrive in collaborative environments where I can contribute to meaningful projects and grow professionally

TECH PROJECTS

WEB FOR CICLICAS FOUNDATION
I led the full development of the new Cíclicas Foundation website, creating a fully customized digital experience from scratch. I worked remotely with the team to restructure the architecture, optimize the user journey, and build a scalable, high-performance platform
Technologies: **WordPress, PHP, mySQL, HTML, CSS, Backup (UpdraftPlus), Elementor, iThemes Security, WPForms, DNS, SSL/HTTPS, Hostalia**
Key Features:
- Remote collaboration with the team to redesign the site architecture and user experience
- Development of a scalable, secure, and performance-optimized WordPress platform
- Full integration of forms for contact, subscriptions, and donations
Link to Project: **https://ciclicas.org/?currency=usd**

PACO BARGUES ART
I crafted and developed a responsive online showcase for the painter and artist Paco Bargues, bringing his entire collection to life through an elegant gallery and offering an easy way for art enthusiasts to get in touch
Technologies: **HTML5, SASS, Javascript** (**ES6**)**, React, Vite, Bootstrap, Formspree**
Key Features:
- I used reusable components with React to create a smooth and modular user experience
- Implemented a dynamic gallery and smooth UI animations for enhanced user experience
- Form handling with validation
Link to Project: **https://mariaguerrero95.github.io/PacoBarguesArt-Website/#/**

RICK AND MORTY CHARACTER FINDER
Created a web application to search for characters from the "Rick and Morty" series. Users can view detailed information about each character, including their name, species, and the number of episodes they appear in
Technologies: **HTML5, SASS, Javascript** (**ES6**)**, React, Vite, Bootstrap**
Key Features:
- Character Search: Integrated with an external API to provide detailed information about characters
- Dynamic Rendering: Used React components to display character details efficiently
- Performance Optimization: Leveraged Vite for faster development and optimized build processes
- Responsive Design: Ensured a user-friendly experience across different devices
Link to Project: **https://mariaguerrero95.github.io/modulo-3-evaluacion-final-Mariaguerrero95/**

ANIME SERIES FINDER
Developed a dynamic web application for searching anime series using an external API. Users can mark their favorite series, manage their favorites by removing individual items or resetting the entire list, and retain their selections even after refreshing the page
Technologies: **HTML5, Sass, JavaScript** (**ES6**)**, Fetch API, LocalStorage**
Key Features:
- Anime Search Functionality: Integrated with an external API to provide real-time search results for anime series.
- Favorites Management: Users can add series to their favorites, remove individual entries, or reset the favorites list entirely
- Data Persistence: Used LocalStorage to save user-selected favorites, ensuring favorites remain visible after page refreshes
- Interactive and Responsive Design: Ensured an intuitive user interface and compatibility across devices
Link to Project: **https: beta.adalab.es/modulo-2-evaluacion-final-Mariaguerrero95/**

SPORTS E-COMMERCE LANDING PAGE
Technologies: **HTML5, CSS3**
Link to Project: **https://mariaguerrero95.github.io/evaluacion-modulo-1-Mariaguerrero95/**

EDUCATIONAL HISTORY

CYBERSECURITY PROGRAM - COURSERA AND YESWETECH, 100% REMOTE
Scholarship Recipient by Google
Apr. 25 - Present

- Fully remote Cybersecurity program, sponsored by Google

ANGULAR 17 COURSE - PLATZI, 100% REMOTE
Jan. 25 - Mar. 25

- Angular fundamentals and architectures

FULL STACK WEB DEVELOPMENT BOOTCAMP - ADALAB, 100% REMOTE
Sep. 24 - Dec. 24

- FRONTEND: HTML5, CSS3, JavaScript and React
- BACKEND: Node.js, mySQL, Express.js
- VERSION CONTROL & COLLABORATION:
- Git and GitHub: Repository management and team collaboration
- Pair programming: Active collaboration with other developers to solve problems in real time
- Tools & Methodologies: Git, Agile (Scrum)

HIGHER DEGREE IN MARKETING AND PUBLICITY - ESP University
